

RF/Microwave and EMC Test Solutions

LANGER
EMV-Technik

Langer EMV-Technik is in the forefront of research, development, and production in the field of EMC. Through EMC experimental seminars and EMC workshops we offer our comprehensive knowledge to our customers. Our interference emission and interference immunity EMC measurement technology as well as the IC test system are used mainly in the development stage and are in worldwide demand.

NEXIO

NEXIO has assembled a team of over 50 technicians, engineers and doctors, able to handle any type of problem oriented on Testing, EMC Design and Simulation, Lightning, RF and RCS. Through a unique platform of products and services, NEXIO has established itself as a major player in the electromagnetism eld with large groups of the Aerospace, Automotive, Space and the Electronic Industry areas. NEXIO is organized into Innovations and Training transverse centers and 3 business divisions.

ABSOLUTE EMC

ABSOLUTE EMC is a North American company specializing in EMC testing knowledge and equipment. They offer consulting services for the use of all EMC & RF test equipment. This includes standards training, equipment training, and system building. With extensive background knowledge with all brands and available technologies. Also offering insight and market knowledge into equipment sales. ABSOLUTE EMC features the following brands: HiLoTest, Schwarzbeck, Schlöder, TekBox.

OPHIR^{RF}

OPHIR-RF designs and manufactures high-power, solid-state RF and microwave amplifier modules, systems and integrated solutions. They offer broadband and band-specific, standard, adapted and custom solution. OPHIR-RF has expanded their product line and is now offering Traveling-Wave tube amplifiers.

CRFS

CRFS designs, builds, programs and deploys systems and solutions for RF spectrum monitoring, management and geolocation. We serve both defense and homeland security customers as well as the civilian regulatory market.

GAUSS INSTRUMENTS

Established in the year 2007, the company GAUSS INSTRUMENTS is manufacturer of highest performance EMC test equipment and provides advanced EMI test solutions pushing your product development and testing capabilities ahead, and speeding up your time to market cycles.

LUMILOOP

LUMILOOP develops and markets ready to use optically powered systems: from the sensor through the optical power and data transfer to the software - all from a single source.

SAF

Compact Handheld Spectrum Analyzers to 87GHz and Signal Generators to 40GHz.

Universal Shielding Corp

UNIVERSAL SHIELDING CORPORATION Leading supplier of RFI/EMI shielded enclosures since 1972. Featured services include MRI enclosures, shielded enclosures for test laboratories and TEMPEST applications, screen enclosures and cabinets for the wireless communications industry, large shielded enclosures for the high-voltage industry.
