

LINECARD

RF/Microwave and EMC Test Solutions

	<p>ABSOLUTE EMC is a North American company specializing in EMC testing knowledge and equipment. They offer consulting services for the use of all EMC & RF test equipment. This includes standards training, equipment training, and system building.</p>
	<p>Established in the year 2007, the company GAUSS INSTRUMENTS is manufacturer of highest performance EMC test equipment and provides advanced EMI test solutions pushing your product development and testing capabilities ahead, and speeding up your time to market cycles.</p>
	<p>Langer EMV-Technik is in the forefront of research, development, and production in the field of EMC. Through EMC experimental seminars and EMC workshops we offer our comprehensive knowledge to our customers. Our interference emission and interference immunity EMC measurement technology as well as the IC test system are used mainly in the development stage and are in worldwide demand.</p>
	<p>MVG designs, manufactures, supplies and installs rooms and chambers for EMC, RF, Microwave and Antenna testing.</p>
	<p>OPHIR-RF designs and manufactures high-power, solid-state RF and microwave amplifier modules, systems and integrated solutions. They offer broadband and band-specific, standard, adapted and custom solution. OPHIR-RF has expanded their product line and is now offering Traveling-Wave tube amplifiers.</p>
	<p>SPEAG is a leading developer and manufacturer of the most reliable, efficient, user-friendly, and advanced numerical tools and instrumentation for the accurate evaluation of electromagnetic near- and far-fields from static to optical frequencies.</p>
	<p>Verifide provides an out-of-the-box, complete, dynamic software platform for all your test operations.</p>
	<p>Wavecontrol develops test equipment for the assessment of human exposure to electromagnetic fields.</p>
